

The next
generation of
multimedia
learning and
reference
systems

AUTHORWARE

Authorware provides the next generation of software products and services for building mission critical learning, reference and performance support systems.

With a unique environment called Object Authoring™, Authorware gives non-programmers the power to create and maintain interactive applications without using complicated commands.

Authorware's ease of use is defined by a set of eleven icons that provide authors with great design flexibility. By simply dragging these icons to a flow line, authors can build a graphical representation of an application called a "logic map." Changing the application's structure is as easy as rearranging its icons.

Content is added to an application by using Authorware's text, graphics, sound, video, and animation tools, or by importing multimedia elements created with other products.

By combining these multimedia elements into a logic map, authors can create a range of interactive applications—from jet cargo loading to dissecting a fly.

PRODUCTS

Authorware® Professional™ for Macintosh — a powerful authoring environment for creating multimedia applications on the Macintosh family of computers.

Authorware® Professional™ for Windows — a powerful authoring environment utilizing Microsoft® Windows™ 3.0 to create multimedia applications on IBM PS/2 and PC-compatible computers.

Authorware® Academic™ for Macintosh — a monochrome authoring environment used by educators to create multimedia learning applications on the Macintosh family of computers.

NOTE: Applications authored on the Macintosh can be delivered under Windows.

SERVICES

Authorware offers its customers the following services:

Consulting

Authorware consultants provide customers with a wide range of expertise, including project planning, conceptual design, and custom application development.

Training

Authorware makes intensive product training available to users at Authorware's state-of-the-art Learning Center, or at the customer's location.

Support

- Telephone Hotline
- AuthorNet™ — Authorware's on-line user network.
- New Product Updates
- One year subscription to **Authorware Magazine**

For more information about Authorware's products, please complete and return the attached business reply card, or call one of our regional offices listed on the back of this brochure.

Educators and developers, please call our Minneapolis office.

Authorware Information Request Card

Name _____ Title _____

Company/Institution _____ Department _____

Street Address _____

City _____ State _____ Zip _____ Phone (____) _____

How would you best describe your organization?

(Please check all that apply:)

- ☐ Commercial ☐ Education ☐ Government
☐ End-user ☐ Developer

What hardware do you use?

- ☐ Macintosh ☐ PC ☐ Other _____

Do you currently use an authoring system?

- ☐ No ☐ Yes Type _____

Are funds budgeted for authoring software?

- ☐ No ☐ Yes Amount \$ _____

When will you make a purchase decision?

- ☐ Within 3 mos. ☐ 4 to 6 six mos. ☐ 6 mos. to 1 yr.

Please indicate which items you would like to order:

- ☐ **Authorware Working Model** - a two disk set of examples built with *Authorware*, a condensed tutorial, and a working application (for Macintosh only). - \$25.00
